WASTE NOT

from Hamilton County Recycling and Solid Waste District

Popular “Get the Dirt on Composting” Classes are Back

These events are a great opportunity to encourage your residents to compost in their backyards. Two of the four classes are still left! This one-hour seminar focuses on the basics of backyard composting such as how to balance a compost bin, what materials are compostable, and how to troubleshoot problems.

At the end of the hour, residents will receive a free kitchen collector, an “I <3 Compost” magnet, and a guide to composting in their backyard.

The District has already held seminars in Sharonville and Price Hill in April 2018.

The remaining 2018 seminars are:

- May 1, 7 pm East End
- May 10, 7 pm Deer Park

To register, visit our [website](#). No internet? Call 513-946-7766. Seats are limited so register now.

Interested in hosting a compost seminar in 2019 for your residents (thanks to Symmes Township for already doing so!)? [Email](#) Jenny Lohmann.

Be sure to include [this link](#) on your website so residents have the most up-to-date information.
